SUMMARY

MS Business Analytics graduate with 2+ years of experience in software and data. Strong in SQL, Python, and BI tools, with experience in data analytics & software development. Seeking full-time data, product, or analytics roles.

EDUCATION

California State University, East Bay

M.S. Business Analytics, GPA - 3.7/4

California, USA

Aug 2024 - May 2026

University of Mumbai

B.E. Computer Engineering, GPA - 8.3/10

Mumbai, India

Aug 2018 - May 2022

WORK EXPERIENCE

Solutions Analyst - Nidaan Systems Inc. - Milpitas, CA

Sep 2025 – Jan 2026

- Developed and maintained 10+ Boomi ETL workflows following Intapp standards to sync data with CDS, cutting manual reconciliation by 25%.
- Built Boomi integrations to migrate Salesforce data from on-premises systems to Intapp Cloud CDS, reducing downtime and speeding up cloud transition by 20%.

Business Analyst (Quality Control) - Lonza - Vacaville, CA

May 2025 – Aug 2025

- Improved resource utilization and planning efficiency by 15% by partnering with the QC team to extract and consolidate SAP and LIMS data into a Power BI forecasting model, enabling data-driven allocation of QC Analysts based on projected raw material testing volumes and team capacity.

Software Engineer - Jio Platforms Limited - Mumbai, India

Sep 2022 – Jun 2024

- Reduced integration costs by 20% and minimized vendor dependency by building RESTful APIs to transition the Enterprise Product Catalog from a monolithic system to a scalable microservices architecture using open-source technologies.
- Cut deployment time by 20% and significantly lowered post-deployment issues by automating configuration processes and implementing dynamic IP and port management.
- Improved data accessibility and boosted query performance by 15% by designing and executing complex SQL scripts to migrate data from Oracle SQL database to MongoDB using Apache NiFi.
- Increased delivery efficiency by 10% by streamlining project tracking and release management through Microsoft Azure Boards, overseeing task assignments, bug tracking, and deployment readiness.

PROJECTS

[All Projects on my Portfolio](#)

Stock Spectrum | Python, Machine Learning, Tableau, Streamlit, Google Gemini

[Link to Project](#)

- Built an AI-driven stock analysis and forecasting app using historical market data (Yahoo Finance API), ML models, and Streamlit, with interactive Tableau dashboards.

Product Recommendation System | Association Rules, Clustering

[Link to Project](#)

- Developed a product recommendation engine using purchase-pattern analysis and clustering to suggest frequently bought-together items and personalized recommendations.

CERTIFICATES & ACHIEVEMENTS

Microsoft Business Analyst Professional Certificate | Data Analytics Hackathon (Datathon 1.0) - 3rd Place

SKILLS

- **Programming & Data:** Python, R, JavaScript; Pandas, Scikit-Learn, LangChain, React.js, Node.js
- **Analytics & BI:** SQL (CTEs, Window Functions), Excel (Pivot Tables, VLOOKUP/XLOOKUP), Power BI, Tableau
- **Tools & Optimization:** Gurobi, SharePoint, Power Apps, Git
- **Cloud & Project Management:** Google Cloud Platform, Azure DevOps, Smartsheet, Salesforce CRM, Jira
